

## **Personal Statements – Elected Parent Governors (October 2018)**

### **Mrs ELSHAYMAA MOLOKHIA**

My name is Elshaymaa Molokhia, I have two children at Haverstock school in years 8 and 10. Originally a teacher at Richmond College, I have been a parent governor for the past 12 years and I am currently the Chair of Governors at a local primary school in Camden. I have also been a governor at Haverstock for the past 4 years. After the recent RI Ofsted inspection of Haverstock School, I put myself forward for the position of the Teaching and Learning Committee Chair as well as the position of the Vice-Chair. During the last academic year, I have worked relentlessly alongside the Chair of Governors and the Leadership Team of the school to bring about rapid improvements to all areas of the school which ultimately led to the successful GSCE results at the end of the year.

As a governor, I demonstrated that I am hard working, committed, honest and transparent in my approach to governance and I always have the students' best interests at heart in any work I do. I believe in giving our children a well-rounded education to prepare them for future challenges as well as enabling and encouraging them to strive to achieve academic excellence and develop a lifelong love of learning.

I believe I can continue to effectively fulfil the responsibilities of the role of parent governor as well as providing Haverstock School with the stability and continuity of leadership and would like to ask for your backing and support to achieve this.

### **Mr WASIM AHMED**

Having spent the last four years as a Parent Governor at Haverstock, I would appreciate the opportunity to continue as a parental representative on the Governing body. As well as the four years at Haverstock, I also have a further eight years experience as a governor at a Camden Primary School and I feel that over this time I have gained the right experience for this role. If given the opportunity, I will endeavour to provide a balanced viewpoint and voice to decisions that are made about your children's education at Haverstock.

### **Mr ENAYATULLAH AMANULLAH**

The overall goal of standing as a parent governor is to enhance core strategic functions of the Haverstock School Governing body. I will share my knowledge and experience of back home where I was working as a technical advisor to the office of the deputy minister of education. I will try to enhance the tripartite coordination system among the community and school as well as Camden education authority.

Haverstock School has big ambitions and a big heart with a good and growing reputation. It has already established a strong connection bridge between community and pupils. The governing body should further improve it. Joint efforts of parent governor and school administration will ensure that the School is going in the right direction as per its set policies/strategies with a clear vision. I will draw on my professional background and my experience as a parent to support our head teacher and our staff to achieve the existing strategic objectives within agreed deadlines.

As a member of governing body I will play an oversight role to monitor the head teacher's educational performance that meets the high standard of quality education with client satisfaction. In fact, I will also learn from the school about how financial procedures work in the School. What is going well and which areas need additional support and intervention. We will make sure that financial system and procedures managed and supervised efficiently.

In general, the significant role of governor body is provision of strategy and technical support for the high quality education in a friendly environment, improvement of coordination, and ensuring expenditure is transparent and proficient.
